ASSESS THE ADDED VALUE FOR YOUR CARRER PATH

- ▶ **Advanced Masters are 1-year postmaster programmes** (also accessible for experienced bachelor graduates) dedicated to students as well as professionals. **Those programmes aims at specializing or reorienting your career path to boost your professional opportunities.**
- ▶ The Advanced Master diploma is delivered by ISAE-SUPAERO and [accredited by the Conférence des Grandes Ecoles](#) (French top-engineering schools Federation).

Some of our Advanced Master programmes also enable to get a skills-oriented professional certification: it increases the professional recognition (and extend the funding solutions if you are currently working in France).

- ▶ **5 reasons to attend an Advanced Master programme:**
 - 1- Adapt your skillset to your transforming current position, function or sector.
 - 2- Strengthen and certify your skills.
 - 3- Foster upward (promotion) or horizontal (diversitification) moves.
 - 4- Make a career shift and start up a new professional project.
 - 5- Boost your employability to get a (new) job.

02

ORGANIZE YOUR TRAINING PROJECT

- ▶ **Advanced Master programmes are designed and taught in close ties with our industrial partners.**
The job opportunities are consequently professionally-oriented (mainly in industrial sector) more than research-oriented.
- ▶ **Courses take place on ISAE-SUPAERO campus in Toulouse** and/or on our academic partners' campuses to take the best from our infrastructures (simulators, innovation and learning centers, aircrafts...) and from the networking opportunities.
- ▶ **Courses are from Monday to Friday during usual working hours** (around 8am to 6pm). Digital resources are often combined with on-site courses within a blended approach but **we do not offer full online programmes.**
If you are willing to join a shorter course to focus on specific skills, have a look at our [Executive Education brochure](#).
 - Most of our Advanced Master programmes are composed of 1 semester of academic courses (from late September) and 1 semester of professional experience (internship or contract) with a professional thesis report and presentation.
 - The AIBT Advanced Master is a work & study programme (with courses around 1 week per month from September to June) accessible in part-time mode or in apprenticeship (if RNCP certification renewed). In the later case, tuition fees are paid by the company.
 - The IEVEX Advanced Master is a summer preparatory programme dedicated to EPNER flight test learners, selection is made by EPNER.
- ▶ **Tuitions fees and funding schemes are available [on this page](#).**
Daily life expenses in Toulouse are from €750 monthly. Please note that Advanced Masters learners could be eligible for scholarships or financial aids from our industrial partners detailed on the funding schemes webpage. You can also have a look at [Campus France catalog](#), your government's or university's scholarship as well as French schemes if you work in France (CPF, Transitions Pro...) for eligible programmes.

You are a professional and you work in France?
[Contact us](#) to get more information about the funding solutions.

03

ANTICIPATE YOUR APPLICATION

- ▶ Most Advanced Masters yearly intake take place in late September. Applications are open from October to June and you can make up to 3 ranked choices. Several admission committees take place from January to August. (applications deadlines available [on this page](#)).
- ▶ **Applying early is a good opportunity to maximize your chances as a lot of programmes are highly attractive!** [Advanced Masters descriptions](#) will help you to select the programmes you will apply for. On our website, you can find key facts leaflets on each programme with programme goals, syllabus, career opportunities and testimonies. **If you need further guidance, please send us your updated and detailed CV and explain us your professional objective** (job seeking, skills certification, industry change...).

If your current job does not enable you to attend an Advanced Master programme, we will be glad to welcome you for a [short course or Certificate of Advanced Studies](#).

04

COLLECT ALL THE REQUIRED DOCUMENTS... AND EVEN MORE!

- ▶ Selection is only based upon academic and professional records (no interview nor exam). We kindly ask you to provide ALL the required documents on the platform and contact admission-masters@isae-supaero.fr if you have a question or problem:

- **Detailed CV and adapted cover letter** (in English for programmes taught in English) to explain your choices in relation with your professional goals.
- **English level** (and French level if your choices include a programme taught in French): **test results or proof of registration for an upcoming accepted test or company certificate of language daily use**. Please note that those documents are required even if your studies were taught in English/in French. Minimum score and exemptions cases are detailed [here](#).
- **Degrees and academic transcripts** of the last 3 years studies. If you need to make a request to your university, please anticipate the processing delay.
- **Work certificates** (at least for the last 3 years) if applicable.
- **ID documents**. If foreign applicant living in France please add residence permit and tax notice for the last 2 years.
- **Admin fees** of €100 (non-refundable) will apply except for members of French Army or partner countries Armed Forces (please check with us if any doubt): **after paying online, do not forget to upload the proof of payment and validate your application**.
- **Letters of recommendation** (at least 2, from teachers or managers/ customers/partners you personally worked with): recommenders will receive instructions – sometimes in their spam folder – as soon as the application is validated online by the applicant. Please remind them that their letter must be signed and include all their contact information.
- **Feel free to add any documents which could support your application.**

- ▶ We are an international Institute but we cannot speak all languages ! All documents must be provided in French or English translated in French or in English.

If you are not a European citizen, please remember to check as soon as possible on [Campus France](#) the administrative procedures that apply to your situation.

English tests or company certificates must be issued 3 years maximum before the intake.

Letters of recommendation must be uploaded before the application deadline: do not forget to contact your referrers in advance!

05

IF YOU ARE ADMITTED (FINGERS CROSSED!)

- ▶ The admission results will be available on the application platform from 4.30pm the D day (check [the calendar](#) according to the application date).
- ▶ We hope that your application will be successful! In that case, you will receive an admission letter indicating the registration deadline. Registration process consists in:
 - Confirming that you are willing to join the programme.
 - Pay online a down payment of €1,500 to book your place (except if the Advanced Master is fully paid by your company or if you will attend an eligible programme with apprentice status). The tuition fees balance will be paid in September (and may be scheduled between September and November).
- ▶ Once registered you can prepare your arrival:
 - **Visa request** thanks to [Campus France](#) support.
 - **Funding solutions**: bank loans, external scholarships, public scheme requests.
 - **Housing plans**: our campus includes students residences and the priority list id managed by the company Altéal. Our Students Affairs department will give you the contact once admitted.
 - **Daily life preparation**: the Toulouse learners settling-in service is called Toulbox. They can help you with bank account opening, transportation, phone credit, insurance contracts... Our Students Affairs department will send you more information after your admission.
