“The world’s most valuable resource is no longer oil, but data” (The economist, 2017).

Data remain most often the fuel to implement modern AI, and the success of major digital companies relies on the ability to capture high-value data. From those observations many companies have tried to gather their data with the hope to valuate them, but with mixed achievements.

This module will explore various aspects of the use and value of data, through legal, geostrategic, and business perspectives.

**Highlights**

- Legal aspects of data
- Geostrategic and business perspectives

**Prerequisites**

- Good knowledge of your own business, basic knowledge of strategic interest of data in your business.

**Learning objectives**

After completing this course, participants will be able to:

- Know about the main legal aspects of data, with international comparisons;
- Know about initiatives that allow business data to be enhanced with opendata;
- Know about business models of “platforms”.

**Key elements**

- **Dates:** 13 - 16 January 2020
- **Duration:** 28 hours, 4 days
- **For whom:** recent graduates, jobseekers and experienced employees
- **Location:** ISAE-SUPAERO, Toulouse
- **Course fees:** 2 300 €
- **Language:** English

**Practical information and registration**
