Application deadlines

For Autumn Semester [= semesters 3 & 5] or full academic year  
April 15th 2020

For Spring Semester [= semester 4]  
October 30th 2020

Required documents

► Application form
► Motivation letter in French
► Resume in French
► Transcript of Records
► French level certificate

Language of instruction and requirements

► French - B1 (CEFR) is required except for double-degree and DES-Diploma* applicants (*) see page 4
► French intensive courses are offered in August for double degree and DES diploma students.
► Regular French courses are organized during the academic year.

Medical insurance

European students must ask for the European health insurance card in their own country.

Visa

The students coming from countries needing a VISA must obtain it by their own means, using the acceptance letter sent from our office.

January 2020
Academic calendar

1st YEAR
- 1st SEMESTER (S1)
  - September to March
- 2nd SEMESTER (S2)
  - March to June

2nd YEAR
- 1st SEMESTER (S3)
  - Mid-August to February
- 2nd SEMESTER (S4)
  - March to June

3rd YEAR
- 1st SEMESTER (S5)
  - September to March
- 2nd SEMESTER (S6)
  - End of study project from April to September

Accommodation
There are 6 dormitories on the campus
Once you receive the admission letter, you will be able to book a room.
More information at www.isae-supaaero.fr/fr/campus/vivre-sur-le-campus/logement/

2. Admission procedure and requirements

Applying, as an exchange student is possible if your home university and ISAE-SUPAERO have signed an Erasmus agreement or/and a bilateral or double degree agreement.

Your home university is responsible for selecting the students allowed to apply to an exchange at ISAE-SUPAERO. On the other hand, ISAE-SUPAERO may accept or not your application.

Exchange students must apply for the “Cycle ingénieur” level (ISAE-SUPAERO Graduate Program).

The admission procedure is transmitted to the partner universities in January.

It is not possible to mix courses from different years (typically, your learning agreement may not include courses from both the 2nd and 3rd year)

2.1 For admission to the 2nd year of the ISAE-SUPAERO engineering program

- **Non degree exchange program**
  - You must have completed at least 3 years (180 ECTS in Europe) of higher education in your university.
  - You can apply for the full academic year (August to June), or for 1 semester.
  - Semester 3 of the 2nd year starts in August and finishes in February. Semester 4 of the 2nd year starts at the end of February and finishes at the end of June.
  - Be sure the courses you plan to take at ISAE-SUPAERO, as well as the number of credits, are approved by your home university. On the other hand, ISAE-SUPAERO expects you to take as much scientific courses as required to validate a minimum of 20 ECTS per semester or 40 ECTS for the entire year.

- **Double degree exchange program**
  - You must have completed at least 4 years (240 ECTS in Europe) of higher education in your university.
  - Courses start in the middle of August and finishes at the end of June.
  - All the courses are mandatory.

The courses listed in the “Programme académique 2A SUPAERO” may be offered or not in 2020/2021. The learning agreement you are going to send is therefore provisional. The 4 electives courses (for semester 4) will be chosen later during the academic year.
2.2 For admission to the ISAE-SUPAERO 3rd year engineering program

- You must have completed at least 4 years (240 ECTS in Europe) of higher education in your university.
- If you are admitted in the 3rd year program, you have to choose 1 multidisciplinary field (so-called “domaine” in French) and 1 major (so-called “filière” in French).
- It is not possible to mix courses from different multidisciplinary fields. Nor it is allowed to mix courses from two or several majors.
- Be sure the courses you plan to take at ISAE-SUPAERO, as well as the number of credits, are approved by your home university. The minimum number of ECTS required by ISAE-SUPAERO is 6 for the field and 10 for the major.
- At the time of applying, you will be requested to select 3 fields and 3 majors (rank them by preference). The number of students per field (resp. major) is limited. The admission committee will decide which field and major you are allowed to perform or not.
- Courses run from September to the end of March.
- The internship (so-called the “End of Study Project”) is scheduled at semester 6 (From April to September). It is not mandatory for exchange students. Conversely, it is mandatory for double degree students.

If you want to spend the whole year (S5 and S6), you have to register for the Diploma of Higher education (see below)

NEW

DES Diploma

- Non degree exchange students can register for the Diploma of Higher Education (DES Diploma) proposed by ISAE-SUPAERO
- Dedicated to students from partner universities admitted to the ISAE-SUPAERO 3rd year engineering program (semesters 5 and 6)
- Not compatible with the Erasmus + student status

Additional services offered to students registered to the DES Diploma:

- 3 or 4-week intensive language course in August.
- Proofreading of your resume and other benefits from our Career center
- Possibility to register to additional trainings (attested by a certificate) scheduled in April and May of the relevant academic year
- Possibility to register to a research master taught in parallel to the 3rd year curriculum

Tuition fees:
EU students: 2 800 €* / Non-EU students: 4 800 €*

(*) indicative - amounts may be adjusted
