Highlights

- Experienced teachers with responsibilities within PMI
- Several mock exams
- PMBOK Guide based work sessions

In an increasingly changing world, professional certification ensures that project managers to meet the demands of international industrial projects. PMI certification is well-known, acknowledged and appreciated through the world. Teachers for preparation are certified themselves and experts of PMBOK reference.
100 % of students who have taken the certification since 2018 have passed it.

Learning objectives

After completing this course, participants will be able to:

- Take the PMI certification

The program offers you to get PMI Certifications:
Two different levels:

CAPM®: Certified Associate in Project Management
The CAPM demonstrates your understanding of the fundamental knowledge, terminology and processes of effective project management.

PMP®: Project Management Professional
The PMP is the gold standard of project management certification. Recognized and demanded by organizations worldwide, the PMP validates your competence to perform in the role of a project manager, leading and directing projects and teams.

Prerequisites

- None for CAPM
- Experience in project management for PMP®

*exam registration cost not included

Practical information and registration
