THE5 - Helicopter: Prototypes, tests, production - quality
From the MS HADA (Helicopter, Aircraft and Drone Architecture)

Highlights
• Certification of helicopters and prototyping
• Supply chain management of helicopters
• Helicopter maintenance

Prerequisites
Background in aerospace engineering

Key elements
Dates: March 27 to 31, 2023
Duration: 24 hours
For whom: recent graduates, jobseekers and experienced employees
Location: AIRBUS HELICOPTERS, Marignane
Course fees: €2,300
Language: English

This module will help all participants increase their skills linked to the certification of helicopters, thanks to very operational insights on prototype manufacturing, production tests and maintenance.

Learning objectives
After completing this course, participants will be able to:

- Describe and discuss the manufacturing of a helicopter from prototype adjustment to large-scale production.

Practical information and registration
Jessica Alix - 05 61 33 83 91 – info.exed@isae-sup Aero.fr
THE5 - Helicopter: Prototypes, tests, production - quality
From the MS HADA (Helicopter, Aircraft and Drone Architecture)

Course content

- Certification of helicopters
- Role of prototype manufactures in the development and industrialization process.
- Ground tests
- In-flight tests
- Cost analysis and methods
- Quality insurance
- Computer-aided production management
- Helicopter maintenance
- Site visit
- Purchasing and subcontracting
- Inspection
