

THE5 – Helicopter: Prototypes – Tests – Production - Quality

From the MS HADA
(Helicopter, Aircraft and Drone Architecture)

Highlights

- Certification of helicopters and prototyping
- Supply chain management of helicopters
- Helicopter maintenance

This module will help all participants increase their skills linked to the certification of helicopters, thanks to very operational insights on prototype manufacturing, production tests and maintenance.

Prerequisites

Background in aerospace engineering

Key elements

Dates: 5 - 9 April 2021

Duration: 31 hours

For whom: recent graduates, jobseekers and experienced employees

Location: AIRBUS HELICOPTERS, Marignane

Course fees: 2 300 €

Language: English

Learning objectives

After completing this course, participants will be able to:

- Describe and discuss the manufacturing of a helicopter from prototype adjustment to large-scale production.

Practical information and registration

Natalia Perthuis - 05 61 33 80 47 – info.exed@isae-sup aero.fr

THE5 – Helicopter: Prototypes – Tests – Production - Quality

From the MS HADA
(Helicopter, Aircraft and Drone Architecture)

Course content

- Certification of helicopters
- Role of prototype manufactures in the development and industrialization process.
- Ground tests
- In-flight tests
- Cost analysis and methods
- Quality insurance
- Computer-aided production management
- Helicopter maintenance
- Site visit
- Purchasing and subcontracting
- Inspection

Teaching methods

Teaching methods	Yes
Lectures / tutorial	X
Collaborative learning	
Flipped classroom	
Blended learning (online and face to face)	
Learning by doing	X
Project-based	
Simulation	
Case study	X

Assessment

Written exam
