Live your best experience in Toulouse

Toulouse

European Capital of Aeronautics and Space.
Top 3 most attractive cities to study in France.

2 outstanding campuses

An exceptional environment in the heart of Toulouse:

- State-of-the-art teaching and research facilities.
- A full range of sports facilities: swimming pool, gymnasium, climbing wall, fitness centre, football and rugby fields, tennis courts, squash courts, etc.
- Student accommodation, lively Student centres, on-site canteens and comprehensive medical services.

A student welcome kit to make life easier right from day one.

ENAC and ISAE-SUPAERO are awarded the 2-star and 3-star certification which demonstrates the quality of our student welcome procedures.

ENAC and ISAE-SUPAERO offer French as a Foreign Language (FLE) courses, with ISAE-SUPAERO holding the 3-star FLE Quality Label, ensuring high standards of teaching and student support.

by

Why Choose TSAAE for Your Studies in Aviation & Aerospace Engineering?

01 Expertise

Learn from leading professionals and academics to refine your skills in aviation, aeronautics, space, innovation, project management, complex systems, AI, and digital technologies.

02 Innovation

Broaden your expertise in cutting-edge technology and innovation, central to the core of TSAAE's courses.

03 Research

Take advantage of our joint research laboratory, with departments covering a wide range of multi-disciplinary topics in aviation and aerospace engineering.

For ENAC's programmes: (+33) (0)5 62 17 43 73

For ISAE-SUPAERO Advanced Masters: (+33) (0)5 61 33 80 25

For ISAE-SUPAERO Master's degree: (+33) (0)5 61 33 80 55

04 International experience

Immerse yourself in an international experience in Toulouse, the European aerospace capital, alongside students, professors, and industry experts from around the globe.

05 Professional and alumni network

Tap into the ISAE-SUPAERO & ENAC alumni network of 60,000 graduates worldwide and leverage our strong partnerships with leading aerospace companies and civil aviation authorities.

06 Exciting career prospects

Take on high-level responsibilities in the industry with the support of our Career Center. Our dedicated team plays a crucial role in helping students leverage their skills and prepare for a successful career. From workshops to prepare your interviews to recruitment forums, we provide comprehensive resources to set you up for success.

MASTER'S DEGREE**

2-year programme

Applicants must hold a Bachelor's degree or equivalent

MASTERS IN AEROSPACE ENGINEERING

- Aerospace Engineering (MAE) by ISAE-SUPAERO
- Aerospace Systems Navigation and Telecommunication (AS-NAT) by ENAC

MASTERS IN AIR TRANSPORT

- International Air Transport System Engineering and Design (IATSED) by ENAC
- International Air Transport Operations Management (IATOM) by ENAC

* based on programmes and candidate profiles
** Diplôme National de Master (DNM)

ADVANCED MASTERS****

1-year programme

Applicants must hold a Master's degree or a Bachelor's Degree with at least 3 years of professional experience or equivalent

ADVANCED MASTERS® IN AVIATION & AERONAUTICAL ENGINEERING

- Airport Management (AM) by ENAC
- Air Transport Management (MTA) by ENAC
- Safety Management in Aviation (SMA)⁽¹⁾ by ENAC
- Aeronautical Maintenance and Support – Engineering & Management (AMS-EM) by ISAE-SUPAERO
- Aviation Safety: Aircraft Airworthiness (ASAA)⁽²⁾ by ISAE-SUPAERO & ENAC
- Sustainable Aviation (SA)^{****} by ISAE-SUPAERO & ENAC

- Space Applications & Services (SPAPS) by ISAE-SUPAERO
- Aeronautical & Space Structures (AES) by ISAE-SUPAERO
- Systèmes de Propulsion Aérospatiale (SPA) by ISAE-SUPAERO
- Systems Engineering (SEN)⁽³⁾ by ISAE-SUPAERO
- Embedded Systems (EMS) by ISAE-SUPAERO

ADVANCED MASTER® IN DIGITAL

- Artificial Intelligence & Business Transformation (AIBT)⁽⁴⁾ by ISAE-SUPAERO

ADVANCED MASTERS® IN AEROSPACE ENGINEERING

- Aeronautical Engineering (TAS AERO) by ISAE-SUPAERO
- Helicopter, Aircraft & Drone Architecture (HADA) by ISAE-SUPAERO
- Space Systems Engineering (TAS ASTRO) by ISAE-SUPAERO

ADVANCED MASTERS® IN PROJECT MANAGEMENT, INNOVATION & ENTREPRENEURSHIP

- Aerospace Project Management (APM) by ISAE-SUPAERO & ENAC
- Innovation, Entrepreneurship & Management (IEM) by ISAE-SUPAERO

*** Mastère spécialisé*

**** Currently under review by Conférence des Grandes Ecoles for the granting of the Mastère Spécialisé® (Advanced Master) label.

(1) RNCP - certified qualification n°39850 - Professional Qualification - Safety Manager in the Air Transport System

(2) RNCP - certified qualification n°39574 - Professional Qualification - Airworthiness & Certification Engineer

(3) RNCP - certified qualification n°36470 - Professional Qualification - Architect Manager in Systems Engineering

(4) RNCP - certified qualification n°40551 - Professional Qualification - Project Manager in Artificial Intelligence and Data Sciences

RNCP: French national Framework for Professional Qualifications

TSAAE, a World Leader in Aviation & Aerospace Engineering Higher Education

In Toulouse, we unite top talent, cutting-edge expertise, and bold innovation to drive the future of air transportation and civil & military aerospace engineering.

Creation: July 2025

Founders: French public establishments ISAE-SUPAERO (1909) and ENAC (1949)

Core Objectives:

- To offer a world-class, globally recognised academic portfolio, aligned with industry needs, empowering tomorrow's experts and innovators,

600+ students
> 60% international students

- To build a joint research laboratory that fosters scientific knowledge and amplifies the reach and relevance of research designed to meet the sector's most critical challenges,

4 research teams
280 faculty members
330 PhD students

- To strengthen innovation and entrepreneurship support systems through a joint incubator, fostering project development and high-impact startup creation.
